- Home Use ■
- Hobbyist ■

## Individual Professional Use

This heavy duty, portable compressor is oil lubricated and belt driven. It features an ASME certified OSHA approved tank and an all steel heavy duty Belt Guard. The low pump speed of 742 RPM means the compressor runs quieter, cooler, more efficiently and lasts longer. Great for anyone who needs portable compressed air around the home or for a contractor on a job site.

### 1.5 HP Single Phase 115v Motor

- 16 Running amps (Requires 20 amp breaker)

### 2 Cylinder Pump

- Only 742 RPM
- 7.2 CFM @90 PSI
