- Engine idle down

30 Gallon Horizontal Tank

- ASME Certified

Don't Forget an Installation Kit!

- INSTALL-30H
- Steel Braided Flex Hose
- 4 Mounting Pads
- 4 Anchor Bolts

Commercial/Industrial Use

This model features a high performance 3 cylinder pump with aluminum heads and over 8' of finned inter-stage tubing for extra cooling. The low pump speed of 750 RPM means the compressor runs cooler, more efficiently and lasts longer. This unit is just the right size for a service truck doing service using a 3/4" impact wrench.
