TPG20 Tyre Pressure Gauge

**Info** / Accessories

The TPG20 is a tyre pressure gauge with an in-line head, used for where direct access to the tyre valve is required.

It incorporates a self-adjusting friction device which enables the pressure to be read when the tyre pressure gauge is removed from the tyre valve, and a positive sealing washer to ensure reliability. Features integral pocket clip and removable protective cap.

## Key Product Benefits

- Incorporates a self-adjusting friction device which enables the pressure to be read when the tyre pressure gauge is removed from the tyre valve
- A positive sealing washer ensures reliability
- Integral pocket clip and removable protective cap
- In-line head is used where direct access to the tyre valve is required

## Product Options

Part No.	Description	Head Type	Calibration	Accuracy
TPG20H01	Pocket Gauge	In-line	6-50lbf/in <sup>2</sup> & 0.5-3.4bar	1lb & 0.1bar units
TPG20H17	Pocket Gauge - Display Packed	In-line	6-50lbf/in <sup>2</sup> & 0.5-3.4bar	1lb & 0.1bar units
